

To help ensure your patients, our members, have the medications they need, AmeriHealth Caritas VIP Care is complying with the Centers for Medicare and Medicaid Services' (CMS) Part D guidance regarding disasters and emergencies resulting from COVID-19. AmeriHealth Caritas VIP Care has taken the following action as it relates to Part D prescription drugs:

- Removing the Refill Too Soon edits – this will allow our enrollees to refill medications early to ensure they have an appropriate supply of medication.
- Allowing the maximum extended day supply of 90 days.
- Allowing retail pharmacies or other pharmacies to provide home delivery/mail order.
- Allowing non-contracted pharmacies to fill prescriptions or reimburse members if they pay for a prescription out of pocket.

If you have any questions regarding these actions, please contact Provider Services at 1-800-521-6007.
